Greetings in the love of God!

On behalf of our church family, we welcome anyone, anywhere to fully partake in our spiritual community. Whoever you are; wherever you come from; wherever you are on your spiritual journey; whatever your race, sexual orientation, or gender identity, I fully welcome and affirm you in the love and oneness of Christ. If you are new or visiting regularly, I welcome the opportunity to greet you in person following the service. Today we welcome our Abbess of The Journey School as our Guest Minister. We will be exploring how The Journey School supports our personal and communal God devotion. How are you being led to love God with all of your Being? Where can you consent more to love God more fully, integrating love for God and love for others? We look forward to the conversation with fellow participants in The Journey School, bearing witness to how the resource of the School supports their love for God, self and others.

Peter

OUR AIM & WISH

The Church of Conscious Harmony exists for the sole purpose of facilitating the spiritual journey for anyone, anywhere who wishes to make God devotion the center of their lives, while living in the ordinary world without the aid of monastery walls. We do this by providing the focus, the teaching(s) and the community support required for individuals to grow with, into and as Christ. As a contemplative Christian community, we encourage and support a life of daily spiritual practice, Centering Prayer, study and devotion in service to a growing awareness and experience of conscious union with the Living God, All people, the Creation and Cosmos.

A CONTEMPLATIVE CHRISTIAN COMMUNITY

Tatiana Nikolova-Houston, Prayer Generating Life

"I need to recognize a higher force, a master, and feel its authority. This recognition comes when the ordinary "I," the ego, ceases to create its own movements. Then an energy of a very special quality appears, which is irresistible, all-powerful, as long as it is recognized and obeyed. It is this energy to which, along with all the traditions, we could give the name "love" if we knew what love meant. Conscious sensation is the first step toward this force."
