The problem: God is 'up there' and we are 'down here.' The Divine Indwelling got lost.

BRAINS & CENTERS

God transcendent, God immanent, God indwelling and the Upanishads.

BRAINS & CENTERS

...that they may all be one, just as you, Father, are in me, and I in you, that they also may be in us...

WHAT ARE WE
HERE FOR?

Eros/Agape - Chapter 7

We serve a purpose – connecting these worlds and manifesting (evolving) love & consciousness

THE JOURNEY

If we are to develop beyond the point to which physical evolution has naturally brought us, the work must be consciously done.

Out of reason and thought, we must arise to conscious awareness.

Out of our emotionally diverse and unstable wishes and reactions, we must develop will or continuous conscious effort.

Out of our instinctive personality we must develop a real individuality.

A BRIEF
REMINDER

God = ∞[∞]

...and nothing that I'm saying is [absolutely] true.

THINKING CENTER

THE WORLD OF
WILL

“The mind can be told about the possibility of transformation. If we can learn how to use this madcap apparatus of ours, something productive can come out of it.” (J.G.Bennett, *Deeper Man*, p.63)

Possibility: Migration from thoughts that are triggered, associative, programmed and reactive to thoughts held and directed by the will.

The terror of the situation

THINKING CENTER

DEVELOPING
SINGLENES OF WILL

Whenever we find ourselves in our thought aware of the idea of Work, we should make a corresponding effort to practice what might otherwise remain only a possibility in our thinking. *(Ibid)*
