

AN ETERNAL UNITY

AN EXPLORATION *of* IDEAS

*"I am as sure as I live that nothing is so near to me as God.
God is nearer to me than I am to myself."*

“Teilhard de Chardin said that every particle in the cosmos contains Christ. Since we are made up of trillions of them, we are truly immersed in Christ at all times. In other words, we are saturated with God.”

~ Thomas Keating

So why don't we feel it?

“God is nearer to me than I am to myself. God is also near things of wood and stone, but they know it not. If a piece of wood became as aware of the nearness of God as an archangel is, the piece of wood would be as happy as an archangel. For this reason man is happier than the inanimate wood, because he knows and understands how God is near him. His happiness increases and diminishes in proportion to the increase and diminution in his knowledge of this. His happiness arises because he knows the nearness of God, and loves God, and is aware that ‘the Kingdom of God is near.’”

~ Meister Eckhart

OUR WORK

*THIS is the
Spiritual Journey*

*Evolution of
consciousness –
personal, and as
a species.*

Our aim is to provide the focus, the teaching and the community support required for individuals to grow in self-awareness from the illusion of separate and separative existence to the fully enlightened experience of conscious union with the living God.

~ CCH bylaws

OUR WORK

“Man is created a self-developing organism and that means he only develops by efforts, for all evolution of Man is conscious - that is, by conscious effort.”

~ Maurice Nicoll

OUR WORK

“It is a simple program, but hard to do. ... You become empty of self-conscious motivation but open to God's action.... Emptiness is not nothingness, but emptiness with an openness to becoming everything.”

~ Thomas Keating

OUR WORK

“As I awaken to my own reality, I awake to the reality of the whole of which I am part, the whole that is the universe itself. Although I am drawn to that which I cannot grasp, I am drawn to that which already holds me in the depth of my own beingness. I am pulled into the power of God, my mind is filled with light and my being expands. Such is the power of contemplation.”
